Corporate Fundraising Manager & Investor Relations

Description

AQUMON are constantly growing and looking for dynamic and energetic finance professionals with the hunger and curiosity to build a career in FinTech industry.

You may have worked in traditional banking, consulting or other highly intensive business environments, but are looking for something with more sense of ownership and creativity.

You may have always wanted to solve real-life problems and make an impact to the world through bringing changes to people's lives.

You may be looking for a highly entrepreneurial environment where every day is not the same, where you are able to gain cross-disciplinary exposure to frontier-pushing fields such as AI, Algorithm, Big Data and Software Engineering.

Join the Strategy & Operations team at AQUMON. Be part of our journey and help drive our next phase of growth.

Who We Are

As a leading FinTech company in Asia, our goal is to redefine wealth management industry. We aim to make wealth management services accessible, affordable and intelligent by using the best in algorithm strategy and big-data technology.

Help Us Revolutionize Investing

From our humble beginnings in 2016 at the Hong Kong University of Science and Technology, AQUMON's story is one of immense growth and innovation. We have built revolutionary investment products and an awesome team along the way. Our goal is to redefine the financial industry, a goal we would love you to help us achieve.

Responsibilities

- Work collaboratively with executive team, finance and legal to drive enterprise strategy and execution;
- Create compelling fundraising presentations for review with our executive team and senior management;
- Contribute and evolve the investor "story" through investor-facing materials; investor presentations, shareholder updates, and roadshows;
- Support key strategic priorities and projects in partnership with the CEO, and working with other functions and stakeholders as required;
- Assist with all aspects of due diligence, including identifying and quantifying sources of synergies and risk, and summarizing findings for the senior executive team;
- Construct detailed financial models and valuation analysis;
- Inform investment decisions by analyzing financial information to forecast
