## Product Designer (Internal Tools)

### Description

The product design team turns complex problems into simple, elegant, and engaging customer experiences for web and mobile experiences. The team is responsible for design at each stage of the project – from user research and wireframes to final visual specifications.

### Responsibilities

- Define design solutions to accommodate our operation teams to perform their daily tasks more efficiently
- Develop detail user flows, wireframes and mockups with exceptional cases along with internal users requirements.
- Draw connections between different internal tools within our ecosystem and come up with better user experience.
- Collaborate with designers, product managers, engineers, stakeholders and other teams to deliver end-to-end experiences
- Communicate design direction, UX decisions, and rationale to stakeholders and team members
- Design consistently following our brand style across all products, not afraid of pushing the boundaries

### Qualifications

- 2-3+ years of experience designing digital products/services
- Experience in designing internal operation tools is a plus.
- A portfolio of work that contains examples of design for digital products and services
- Solid understanding of user-centered design and UX principles
- Attention to detail, mastery of your craft: visual design, interaction design, prototyping
- Understanding of design system, best practices, and guidelines across iOS, Android and Web
- Excellent written and verbal communication skills
- Fluency in Figma, Sketch and other design prototyping tools
- Open minded, eager to learn
- **Candidates without a portfolio will not be considered**

### Bonus points

- Interest/some knowledge in cryptocurrency, fintech
- Experience working in Exchanges, Crypto, DeFi or other financial startups

### Job Benefits

- We offer an attractive compensation package working in a cutting-edge field of Fintech.
- Huge responsibilities from Day 1. Be the owner of your own learning curve. The possibilities are limitless and depend on you

### Hiring organization

Crypto.com

Crypto.com was founded in 2016 on a simple belief: it's a basic human right for everyone to control their money, data and identity. With over 10+ million users on its platform today, Crypto.com provides a powerful alternative to traditional financial services, turning its vision of "cryptocurrency in every wallet" into reality, one customer at a time. Crypto.com is built on a solid foundation of security, privacy and compliance and is the first cryptocurrency company in the world to have CCSS Level 3, ISO27001:2013 and PCI:DSS 3.2.1, Level 1 compliance. Crypto.com is headquartered in Hong Kong with a 2000+ strong team.
