Product Manager, Accounting & Operations

Description

The company offers OTC, iRFQ and electronic trading services giving traders access to the world's deepest liquidity pools, digital asset borrowing and lending, as well as secure, insured wallets to ensure the safekeeping of digital assets with timely transaction settlement.

OSL is the trusted gateway to the digital asset economy.

Responsibilities

- In depth knowledge of the Accounting & Operations product portfolio and E2E flows
- Create and maintain the Accounting & Operations product portfolio roadmap, milestones, and dependencies with strategic priorities in mind
- Define features, write product specifications, facilitate user studies, iterate on feedback, help write test plans with QA, manage the backlog, and ultimately ship products/features in a timely manner
- Level of automation and digitisation of transactions and client interactions
- Interview and interact with customers and commercial teams to discover the true customer needs and ensure value and quality is delivered upon release of new products and existing product enhancements
- Work with stakeholders to prioritize initiatives, resource and projects appropriately and weigh tradeoffs that must be made
- Perform market research and analysis
- Represent the team in communication with cross functional teams
- Collaborate with all facets of the business to build a growth mindset culture

Qualifications

- Experience in delivering successful Operations Automation (RPA, OCR), reconciliation automation & settlement products / services at scale
- Previous experience in Digital Assets, Fintech or Banking
- Ability to work autonomously and driving delivery of requirements in an agile framework
- The ability to collaborate well with commercial, designers, engineers and become the "bridge" that ties the connection between commercial requirements to technical requirements
- Experience in working in an agile environment and writing high-quality user stories
- A growth mindset and the ability to think outside the box
- Excellent interpersonal, communication, organization and prioritization skills

You will love the team and OSL if you

Hiring organization

OSL

OSL, Asia's leading digital asset platform and member of BC Technology Group Limited (stock code: 863 HK) ("BC Group"), is the first firm to become licensed by the Securities and Futures Commission (SFC) to conduct Type 1 (dealing in securities) and Type 7 (automated trading service (ATS)) regulated activities, and is now the world's first SFC-licensed, listed, digital asset wallet-insured, Big-4 audited digital asset trading platform for institutions and professional investors.
